RFE COMPETITIVE GRANTS APPLICATION

Applicant's name: Scheba Basile; Calvin Stanley, Kathryn Doyle

Email address: basiles@randolph.k12.ma.us; stanleyc@randolph.k12.ma.us;
doylek@randolph.k12.ma.us

Applicant's position:

Ms. Basile - JFK Elementary School Assistant Principal

Mr. Stanley - JFK RISE Program BCBA

Ms. Doyle - JFK RISE Program ABA Coach

Grant Title:

"Tools for Tranquility: Growing Sensory Supports for RISE Students"

What is the total budget for your proposal?

Grade(s) affected by the grant:

K-5

School(s) affected by the grant:

JFK Elementary School

Total number of students to be directly affected by this grant:

65 Students (all members of RISE) and potentially entire student body

Please provide a brief (one paragraph) summary of your proposal. You will have an opportunity to provide further details below:

We are actively seeking opportunities to increase access to our school's sensory room to allow our students to reset their emotional and behavioral levels so that they can better access the curriculum.

Describe your project in detail. What are you planning to do? How will you do it? Who will benefit from the project? Why is this project important to the education of your students? What do you hope to accomplish? How will you know if this project is a success?

The sensory room at the JFK Elementary School was first utilized during the 2024-2025 school year. Data collected indicated that from January to May 2025, the room was accessed 75 times by 10 students. This data may be underrepresented as not all of the sensory room uses were logged. Thus, the data suggests that the sensory room serves a vital purpose in helping our students with autism, providing them with a calming, safe, muted, neutral space where they can return to their emotional and behavioral baseline levels and thus be better able to access the curriculum as they return to the classroom.

The use of this space has been added as an accommodation to several student behavior plans. It allows students to practice self-regulation strategies, and do so in a space free from distractions. Students are accompanied by their teachers and staff who offer guidance and support. Students are asked to label their emotional levels when entering and leaving the space. Based on last year's entries, the average emotional rating that students reported when first utilizing the sensory room was 3.8 out of 5, representing emotional instability and thus requiring the room's use. At the end of the room's use the students reported an average of 1.6 out of 5, meaning they felt more emotionally stable and ready to return to class.

With the support of this grant, we aim to expand the sensory offerings in the room and give students more choices on what they can use to regulate their emotions. We want to have this space available for all RISE students. We also want to further educate our teachers on how to use the room more effectively. Eventually, this space will be open to all JFK students who need a quiet space to reset themselves. With the District's renewed emphasis on social-emotional education, this space will offer another opportunity for teaching.

What is the proposed start date?

2025-2026 school year and beyond.
